PANEL MOUNT TIMER DIGITAL

Syr-Line Series

MDE1R0524U
Timer MDE1 Multifunction 8pin Relay 24V ac/dc

- Multifunction
- Display of set and current time
- Time range 0.001 - 9999h
- Backlit LCD display

PRODUCT DESCRIPTION

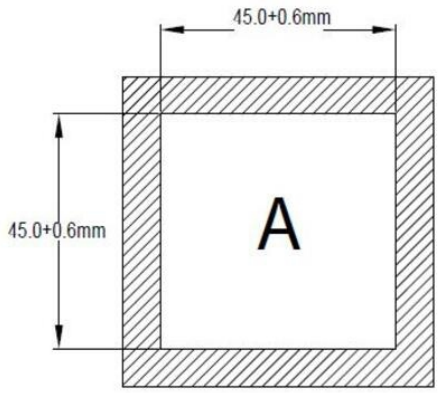

Now we are launching a new series of digital time relays in the Syr-Line series from Crouzet with clear LCD display that has IP66 enclosure in the front.

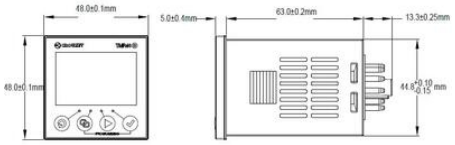

The current set time and relay status are shown in the display. Time relays have many different functions as well as up and down counting to choose from.

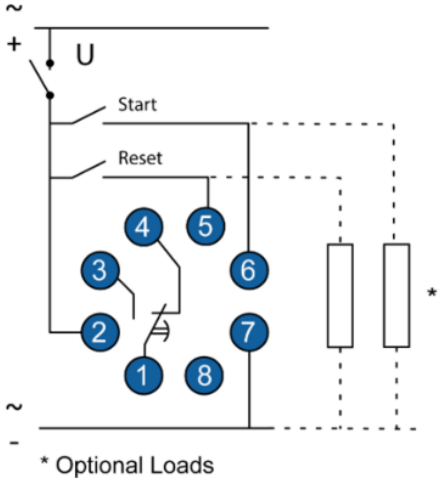

The programming is very simple and can be locked to prevent accidental change. The time interval is adjustable from 0.001 second and up to 9999 hours and has memory function for time counting in case of potential voltage drop.
The time relays are available with one or two alternating relay outputs that can handle the entire 10A and connect into a 11-pin socket, which allows for both panel and bottom mounting.

TECHNICAL DATA

Approvals	CE, RoHS, UL
Breaking capacity	NO: 1250 VA / 150W - NC: 750 VA / 90 W
Function	A, B, C, H, D, Di
IP class front	IP66
IP class housing	IP20
Multi-function	Yes
Output	Relay 1 pole C/O
Power consumption	2.5 VA / 1 W
Storage temperature max	70 °C
Storage temperature min	-30 °C
Supply voltage	24V AC/DC
Switching current max	5 A
Temperature operational max	60 °C
Temperature operational min	-10 °C
Time range	0,001 s - 9999 h
