IDEAL CONNECTION BLOCKS, TOOLS AND RJ45 PLUGS

30-5025EU
Push In and Lever Wire Connector Kit, 80pcs Mixed

- Releasable connector – for solid, stranded and flexible wires
- Compact design – suits tight spaces
- Easy to use - no need to lift the levers when using on solid wire
- RJ-45 CAT5e & 6 Modular Plugs
- Clear shell - allows for verification of connection

PRODUCT DESCRIPTION

IDEAL Industries' range of wire connectors provides a time-saving, modern and safe alternative to traditional screw-down terminal strips.

These products are available in direct push in, with or without levers to cover connects up to 6mm² cables.

To complement the range, we also have a selection of CAT5/6 Modular plugs that can be quickly and easily crimped to provide flexibility of running the right length of data cables inside a panel.

TECHNICAL DATA

Colour	Blue, Yellow, Clear, Orange, Red, Black, Transparent
Connections	1 to 8
Cross section single wire from	0.2 mm²
Cross section single wire to	4 mm²
Cross section stranded wire from	0.14 mm²
Cross section stranded wire to	4 mm²
Height	8.8 mm
Pack size	40
Rated current copper	32 A
Rated voltage V AC	450 V AC

Push In and Gen II Lever Wire Connector Kit:

- 10 x 32A 2 port Gen II Lever Wire Connectors
- 10 x 32A 3 port Gen II Lever Wire Connectors
- 5 x 32A 5 port Gen II Lever Wire Connectors
- 10 x 32A 2 port Push In Wire Connectors
- 10 x 32A 3 port Push In Wire Connectors
- 10 x 32A 4 port Push In Wire Connectors
- 10 x 32A 6 port Push In Wire Connectors
- 15 x 32A 2 port SpliceLine® Wire Connectors

IDEAL Gen II Lever wire connectors are a cost-effective solution for joining solid, stranded or flexible conductors. The innovative levers open in the opposite direction of the insertion point and lock in position to avoid accidental loosening or pull out.

Rated at 32A, they are reusable and can accommodate multiple wires of different types and sizes from $0.2mm^2 - 4.0mm^2$ for solid and stranded plus $0.14mm^2 - 4.0mm^2$ for flexible wires.

IDEAL Push In wire connectors can reduce installation time by up to 50% compared to more traditional connection methods such as terminal blocks. They are the perfect replacement for crimped splices with 2, 3 and 4 port models rated at 32A.

The SpliceLine® in-line wire connector provides a crimp free solderless butt splice accepting up to $4.0\,mm^2$ solid wire allowing one connector to do the job of multiple through crimps.

All connectors are CE, UKCA and UL listed and fully compliant with the 18th Edition wiring regulations in the UK.
