## DEFINOX - DCX 3 DE LEAK-PROOF VALVE

**Pneumatic** 

DE-DD050A64100 Seat valve DCX3 DE, X2-body, NC DN50 EPDM

- Perfect leak tightness at high temperature and good resistance to chemical products
- · Excellent resistance to expansion
- · Leak indicator, for leaks between gaskets
- Able to absorb excess pressure under the plug
- · Quick installation and removal

## PRODUCT DESCRIPTION

Definox DCX3DE leak-proof valve

The DCXDE is a double sealing changeover valve which performs the same usual functions of a standard DCX3. It also enables a potential leak to be detected between the two isolated zones due to the chamber connected to the atomsphere. This is an alternative to mixproof leak chamber valves. This leak-proof valve meets the strongest requirements for process technology and is the ideal solution for Food, Brewery, Cosmetics, and Pharmaceutical Processes. The seat valve design offers a wide range of options and variants.

Technical advantages:

- From DN 51 to DN 104
- · PFA liquid seal, perfectly washable, ensures perfect leak tightness at high temperature and good resistance to chemical products
- · Spherical body with thick walls ensures excellent resistance to expansion
- · Different body configurations possible: + TL / LT / L
- · Numerous connections possible: SMS DIN Clamp
- · The plug can be supplied with an elastomer seal. This solution is reccomended for applications with charged liquids.
- · Pneumatic actuator- removable and easily adjustable: NO-NC-Double effect
- · Independent double valve system
- · Leak indicator, for leakage between gaskets
- · Able to absorb excess pressure under the plug
- · The valve body is machine-made in a piece of solid steel that ensures excellent resistance to mechanical and thermal damage
- · Quick installation and removal
- · Possible use on a wide range of applications
- · Complete interchangeability of sub-components
- · Easy and fast maintenance thanks to the clamp assembly.

## **TECHNICAL DATA**

| Certificate     | 3.1 EN10204  |
|-----------------|--------------|
| Connection type | Weld ends    |
| Description     | EHEDG design |
| Design norm     | DIN          |
| Housing         | X2-body      |

| Inner diameter         | 50 mm                    |
|------------------------|--------------------------|
| Material controls      | Stainless steel AISI 304 |
| Material quality       | 1.4404                   |
| Material seat seal     | EPDM                     |
| Operating pressure max | 8 bar                    |
| Outer diameter         | 53 mm                    |
| Pilot pressure max     | 7 bar                    |
| Pilot pressure min     | 5.5 bar                  |
| Surface finish         | RA<0,8/1,2µm             |
| Temperature range      | -5°C/+140°C              |
| Weight                 | 7.7 kg                   |
