KDSI-SR-G INVERTED CABLE ENTRY SYSTEM WITH SPLIT FRAME - COMING SOON!

KDSI-SR-G

29100.4
KDSI-SR-G 1-4 BK

- Maximum flexibility in the installation sequence
- Installation and assembly from one mounting direction
- No screws required to hold frame halves together
- Optimised Warehousing

PRODUCT DESCRIPTION

The inverted KDSI-SR-G frames allow for interior assembly from the outside. This is ideal for applications where space inside the panel is limited. They can hold all types of cables in place even those without connectors.
The front and back of the frame have a screw connection whereas the top and bottom connect with a secure dovetail clip that follows the standards of an IP66 protection rating.
The KDSI-SR-G cable entry system can fit cut outs for 4-24-pole heavy duty connectors.
