KDSI-SR and KDSI-SR-G Range of Cable Entry
Systems

- Cover can remain securely open or closed
- Can fit various keystone modules
- Snap in assembly for easy installation
- IP66
- USB 3.0, USB-C, RJ45 and HDMI Inserts

PRODUCT DESCRIPTION

The KDS-DEG-A/KS-D and KDS-DEG-AI/KS-D sealing elements are compatible with the KDS and KDSI cable entry systems, allowing for the integration of various keystone modules offering secure cable management for various wires. These seals offer an IP66 rated cover that can be left securely open or it can be closed to protect the end of the wires from water, dust and other contaminants. The sealing elements can be easily installed without requiring any machine disassembly offering a cost and time effective solution for adapting cable management systems.
