## **IDEM KLM-P2L LOCKING SWITCH**

202028F-SS KLM-P2L 1/2"NPT 230V SS Head - flat actuator

- Electric locking
- 8 key entry positions
- LED indicator
- Locking force up to 2000 N
- · Completely metal

## PRODUCT DESCRIPTION

Locking switch with locking system SAMOCK-KLM-P2L, made of cast metal, with locking force up to 2000N. The switch is completely metal and, as an option, is also available with a head made of stainless steel. The switch has 1 LED, which shows the status of the solenoid. It also has a rotatable head, which provides 8 key entry positions for easy and flexible mounting.

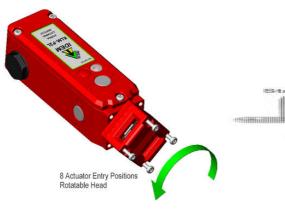

The KLM-P2L breaker has a standard distance between the fixing holes - 30 mm.

The switch is available in the version: voltage locking.

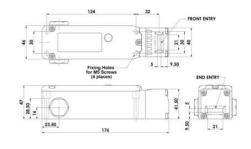

## **TECHNICAL DATA**

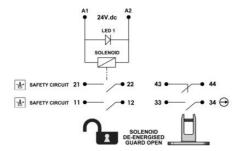

| Actuator                            | Flat   |
|-------------------------------------|--|
| Annual usage                        | 8 cycles per hour/24 hours per day/365 days                            |
| Approvals                           | ISO 13849-1, ISO 14119, EN60204-1, EN62061, EN60947-5-1, UL 508        |
| Conduit entry                       | 1/2" NPT   |
| Contact type                        | 2NC safety circuits, 1NC 1NO auxiliary circuits - actuator/door status |
| Contacts                            | 3NC 1NO  |
| Head material                       | Die cast metal   |
| Holding force (F1Max)               | 3000 N   |
| Housing material                    | Die cast metal   |
| IP class                            | IP67   |
| LED indication                      | LED status of solenoid power   |
| Maximum approach / withdrawal speed | 600 mm/s   |
| Mechanical reliability B10d         | 2.5 x 10 <sup>6</sup> operations at 100mA load                         |

| Mounting                    | 4 x M5                  |
|-----------------------------|-------------------------|
| MTTFd                       | 356 years               |
| Operating temperature       | -2540°C                 |
| PFHd                        | 3.44 x 10 <sup>−8</sup> |
| PL                          | e acc. ISO13849-1       |
| Rated insulation voltage    | 600V ac                 |
| SIL                         | 3 acc. EN62061          |
| Solenoid Voltage            | 230V ac                 |
| Thermal current (Ith)       | 5 A                     |
| Travel for positive opening | 10 mm                   |
| Utilisation category        | AC15, A300, 3 A         |
| Withstand voltage           | 2500V ac                |

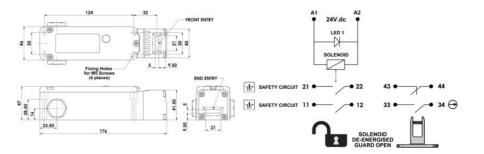

|       | 6    | .0 5.0 | On                 |
