SIGNAL TOWER Ø 50MM CT5

CT5

CT5-Q02
Pre-assembled Signal tower Ø 50mm red/green 24VDC
100mm tube

- Cost effective modular 50 mm Ø signal tower
- Suited for 24V DC applications
- Up to 5 stackable modules
- LED multifunction and LED steady light modules in 6 colours

PRODUCT DESCRIPTION

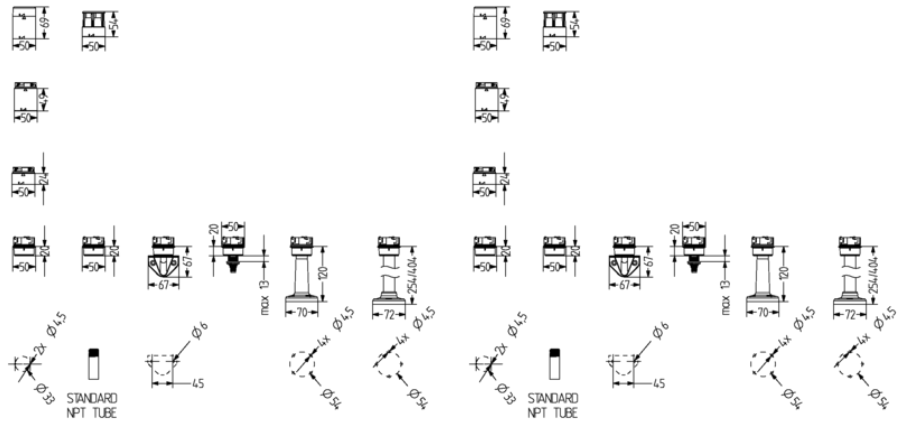

One of the most cost-effective signal towers on the market, the new robust CT5 50mm signal tower has been developed for classic 24V DC applications and allows up 5 different modules to be stacked.

- Cost-optimised modular 50 mm Ø signal tower
- 24V DC applications
- Up to 5 positions possible
- Polycarbonate housing
- IP65 rated
- LED multifunction and LED continuous light modules in 6 colours
- Efficient sound module selectable up to 95 dB – 8 tones
- Optimised ‘resilient’ bayonet system enables high stability, even without sealing rings
- Five-pole M12 base with automatic contacting push-in system
- Various mounting types
