LIGHT BULBS

893012313
LED flashing bulb, Red, 230 V ac, LLB

- Incandescent bulbs
- Halogen bulbs
- LED Flashing and Steady bulbs
- Bulb fitting tools

PRODUCT DESCRIPTION

Incandescent bulbs
Most simple and cost-effective light source, Available in a wide range of shapes, voltages and outputs.

Halogen bulb
Higher light output than incandescent bulbs: up to 25 lm/W. Longer service life (about double that of incandescent bulbs). Little blackening of bulb - same luminous flux throughout the entire service life

LED bulb
High light output - high-power LEDs: up to 200 lm/W, standard LEDs: up to 50 lm/W. LED brightness is reduced only very slightly with coloured lenses as a result of narrow spectrum. Low energy consumption.
Very long service life - up to 100,000 hours. Full resistance to vibrations, impact, shocks, etc.

TECHNICAL DATA

DATA

Lens colour	Transparent
IP class	IP40
Light source	LED
Light type	Red LED
Supply voltage	230 V
Mounting	BA15d
Weight	15 g

Lamp socket	BA15d
