

## CALIBRATION TOOLS FOR AI CAMERAS

3087176  
EXOLÖF CALIBRATION TOOL USB-WIFI

### PRODUCT DESCRIPTION

The Wi-Fi module is used together with Exolöf AI cameras to set more advanced parameters if required. The module is connected to the camera via USB 2.0 generating a wifi hotspot, this allows parameters to be set/changed by accessing a website via a connected mobile phone or computer.

### TECHNICAL DATA

Cable length	90 mm
Camera inputs	USB 2.0
Dimension	102x47x11 mm
Temperature operational max	70 °C
Temperature operational min	-20 °C
Total weight	25 g
Voltage	5 VDC
