DATASENSING IMPACT VISION SOFTWARE

DL-IMPACT-LITE

- Lite version free and easy to use
- Works perfectly with the Datasensing's P-Series.
- Full impact for A,T and MX series of cameras

PRODUCT DESCRIPTION

VPM™ Lite is used by the inspection programmer or administrator to create inspection programs that run on the Datasensing P-Series Impact camera. A variety of tools furnish the flexibility to program the inspection and configure the Datasensing hardware. You can view inspection results in VPM's Summary Table.
