PEKAT VISION SOFTWARE

REQUEST A DEMO
PEKAT Vision Software

- Fast Processing Speed
- Short Time Training
- Training is saved on device

PRODUCT DESCRIPTION

PEKAT Vision is a software built around industrial inspection and quality assurances.

PEKAT VISION effectively finds anomalies, detects and classifies defects and checks surface on materials and objects.

Thanks to AI and focused-learning algorithms, it has a unique feature of detecting even previously unseen defects.

Applications:

- Defect Detection
- Completeness Check
- Product Sorting
- Camera Based Robot Guidance
- Text Reading
