CUBO N

Cubo N

NGRP304020
Enclosure CUBO-N 300x400x200

- Polyester
- IP66
- High impact resistance IK 10
- Built-in rain cover

PRODUCT DESCRIPTION

This Ensto wall cabinet is made of glass fiber reinforced polyester and is extremely durable. This enclosure has a very high impact resistance. With this enclosure you can easily replace the stainless steel enclosure. The Cubo N is a cost-effective polyester enclosure that is UV resistant, self-locked and halogen-free. The cabinets are corrosion resistant and do not absorb water. This enclosure is suitable for highly demanding environments such as shipping, measurement and control, renewable energy as well as water and wastewater treatment. Other areas are eg. Oil refineries and petrochemical / chemical industries. An integrated edge guard prevents water entry when opening the door.

TECHNICAL DATA

Width	300 mm
Height	400 mm
Depth	200 mm
Colour	Grey RAL 7035
Material	Polyester
IP class	IP66
Impact resistance	IK10
Operating temperature from	-40 °C
Operating temperature to	80 °C
Temperature range, short term min	-50 °C
Temperature range, short term max	140 °C
