

## THK - LF - TORQUE BALL BUSHING

LF8-

- High load capacity in radial and rotational direction
- High performance in demanding environments.
- High speed and quiet
- Long maintenance intervals

### PRODUCT DESCRIPTION

Ball bearings bushing model LF has, depending on size, 2 to 3 running grooves in the shaft.

### TECHNICAL DATA

|                |         |
|----------------|---------|
| Dynamic load   | 1,47 kN |
| Length         | 25 mm   |
| Outer diameter | 16 mm   |
| Static load    | 2,55 kN |
