### PRODUCT DESCRIPTION

The DCMind Brush product family is Crouzet's new generation of high performance DC motors.

Engineered to be very quiet and energy-efficient, making it ideal for medical and laboratory applications and any application that requires low noise levels & low vibration - the motor without gearbox emits a noise level of 35 dBA, substantially quieter than the sound of rainfall (50 dB).

DCmind Brush has a lifespan of up to 24,000hr without load and up to 5,000hr with rated load.

The motors are rated to IP65 dust/water protection class as standard with the ability to reach up to IP69K.

DCmind is certified for UL and various other specific certificates within the medicine and household industry.

Options for adaptation to the standard motor include encoder, brake, special output shafts & general mechanical/electrical modifications developed according to your specific application requirements.

Planetary gearbox

To maintain a very low noise level, the motor pinion is precision-machined on motor shaft to obtain optimum concentricity and parallelism. The gears in the first stage are helical-cut and made from a composite material. This design significantly improves gear life by reducing wear due to friction, increases gearbox efficiency and ensures a very low noise level even with the gearbox under load.

Worm gearbox

This gearbox combines a hardened steel worm gear with a hardened bronze helical wheel, a combination that ensures a long service life. The helical wheel rotates in a grease reservoir to provide an excellent slip coefficient and dissipate heat. O-rings and lip seals equipped with perforated springs are used to ensure sealing the gearbox output shaft.

The gearbox casing is made of aluminum to maximize heat dissipation. However, because of the high power rating of this gearbox and the lower efficiency inherent in worm gearboxes, care must be taken not to exceed a temperature of 75°C on the gearbox casing during operation.

The output shaft configuration can be right, left, or a dual shaft output on both sides.
