

CO2 MONITOR WITH RELAY OUTPUT

MONITOR

CO2 Monitor - Part numbers coming soon, contact us for more information

- Clear digital read out
- Main rated volt free contact output
- IP40 rated
- Back plate can be pre-wired

PRODUCT DESCRIPTION

Flamefast Carbon Dioxide Monitor provides a bold visual indication using a traffic light PCD as well as having a digital readout.

Using the built in Volt Free Contact, the unit can be easily interfaced with ventilation and Window Control Systems, as well as Gas Safety Systems. The unit can also be used as a traffic light indication to raise awareness of high CO2, Temperature or Relative Humidity (depending on model purchased).

The CO2 Monitor offers 4 selectable programs for different applications; two aimed at Ventilation and two aimed as Gas Safety. Custom Software profiles can also be provided to adjust the alarm and traffic light set points as well as the relay configuration. The relay and traffic light can be configured to activate based on any combination of CO2, Temp or RH (CO2 only as default).

*Please note that this is not suitable for domestic installation in Scotland.

Key features:

- 100-240V Power Supply
- CO2 Read out (temp & RH on -H model only - available on request)
- CO2 traffic light indication (can be configured for Temp & RH)
- Volt free contact output based on CO2
- Typical 15 year life expectancy
- Self calibrating CO2 sensor
- Audible alarm
- Mounts onto any standard single Gang junction box or conduit box
- UK manufactured

Please refer to the datasheet under 'downloads' for part numbers and/or technical data, we are working on getting all part numbers and technical data on the website as soon as possible.
