

ORIENTAL MOTOR - 80MM 25W INDUCTION MOTOR WITH RIGHT ANGLE HOLLOW SHAFT GEARBOX

4IK25GN-AW2U+4GN100RH

80mm induction motor 25W 110/115V lead wire 1ph
60Hz + 80MM Right angle hollow shaft gearbox 100:1

- 0.2 to 8 Nm output torque
- Low noise 4 pole motor
- Single phase constant speed or three phase for inverter driven speed control
- UL, CSA, CE marking
- Voltage options for round the world use.

Motor and Gearhead ship separately.

PRODUCT DESCRIPTION

Standard induction AC motors from Oriental Motor include single and three phase powered motors.

The single phase motor uses a capacitor for start, with options covering many worldwide voltages.

A three-phase motor connects using an inverter drive, for speed control and high-torque available even at low speeds.

These high-performance motors have little speed reduction even under high loads, ensuring that stable speed control is possible

Suitable for continuous operation over a long life - typically 10,000 hours+ and with a compact construction, they are used on many applications.

Typical uses

- Conveyors
- Packing machines
- Label and printing machines
- Food processing machinery
- Pumps
