

STEGOJET SPOT COOLING FAN

SJ 019

01925.1-01
SJ 019 Stegojet fan, 27.6 m³/h, 12-24V dc, screw fixing

- Prevents hot spots
- Directional outlet
- Wide voltage range
- Compact design
- DIN rail or screw mounting

PRODUCT DESCRIPTION

The STEGOJET is a compact directional powerful fan. It allows precise cooling of heat sources and the air flow prevents formation of heat pockets.

This product is ideal for spot cooling on high wattage components and can be used in conjunction with the standard filter fans in critical installations.

Its design offers a maximum rotation range with an air output in almost any direction. On one hand the dual clip system (two clips in a 90° angle) allows four different positions on a DIN rail, while on the other hand the hinge in the housing can be moved in a 40° angle.

The airflow at the air outlet can also be directed in a 45° angle and the air duct can be rotated in steps of 60°.

TECHNICAL DATA

GENERAL DATA

Air volume free blowing	27.6 m ³ /h
-------------------------	------------------------

DIMENSIONS

Width	75 mm
Height	60 mm
Depth	132 mm
Weight	0.2 kg

MATERIALS

Colour	Black
Flammability class	UL94-V0

RATED OPERATING CONDITIONS

Voltage max	26.4 V dc
Voltage min	12 V dc

Frequency	50/60 Hz
Power consumption	4 W
Life span	40 000 h @ +60 °C (+140 °F)
Storage temperature	-30°C ... +70°C
Operational temperature	-10°C ... +60°C
Operating humidity	< 90% RH
Humidity storage	<90% RH

SAFETY AND APPROVALS

IP class	IP20
Approvals	CE, EAC, RoHS, VDE
Protection class	II (double insulated)
Material of body	Plastic
