

QUARTER-TURN COMPACT 13,5 MM

The quarter-turn latch is very versatile and can be used in a vast number of applications. You design the latch to accommodate your needs by combining your choices of housing, nut, insert, washer, screw and cam. The latch can be delivered un-assembled, pre-assembled with enclosed cam or fully assembled.

The latch is vibration resistant according to DIN EN 61373. Protection degree IP65 is achieved by an O-ring on the insert and a flat gasket on the housing.

IP65

DIN EN
61373

MATERIAL

Cam and screw: Steel, zinc plated

Housing: Zinc die cast, chrome plated or black texture powder coated

Insert: Zinc die cast, chrome plated or black texture powder coated

Standard nut: Brass, zinc plated
