¹ Operating temperature can be extended up to +65°C with reduced current and power ratings.

² iPOS8010 can be operated in vacuum (no altitude restriction), but at altitudes over 2,500m, current and power rating are reduced due to thermal dissipation efficiency.

³ It is recommended to mount the iPOS8010 BR-CAN on a metallic support using the provided mounting holes, for better reliability and reduced de-rating due to heat dissipation
